Herpetological Conservation and Biology (ISSN 1931-7603) is a peer reviewed open-access journal that is published at least quarterly in partnership with the World Herpetology Congress (<http://www.gu.edu.au/school/asc/WHCWeb/>) and Partners in Amphibian and Reptile Conservation (<http://www.parplace.com>). HCB publishes original research, reviews, perspectives and correspondence on the life history ecology, management and conservation of amphibians and reptiles. Its focus demonstrates the importance of natural history to conservation efforts. Manuscripts, editorial correspondence and inquiries regarding print subscriptions should be sent electronically via email to the Managing Editor (malcolm.mccallum@tamut.edu). Additional information may be obtained at: <http://www.herpconbio.org>. Copyright for all articles published in HCB are retained by the author/s with the agreement that future publication of HCB publications in other venues indicate that the manuscript was originally published in HCB and provide the original citation. Publication in HCB indicates the authors consent that copies of the article may be made beyond those permitted by Sections 107 or 108 of the U.S. Copyright Law provided that copies are made only for personal or internal use of specific clients. To request permission for other kinds of copying, such as for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale, kindly contact the author/s of the manuscript in question. ©2006 Herpetological Conservation and Biology.
