HCB Peer Reviewers 2006-2007..... ii

Articles

Distribution and Relative Abundance of Tennessee Cave Salamanders (*Gyrinophilus pallescens* and *Gyrinophilus gulolineatus*) with an Emphasis on Tennessee Populations. 1
Brian T. Miller and Matthew L. Niemiller.....

Sex Ratio Prediction of Juvenile Hawksbill Sea Turtles (*Eretmochelys imbricata*) from South Florida, USA. 21
Gaelle Blanvillain, Lawrence D. Wood, Anne B. Meylan, and Peter A. Meylan.....

Turning Population Trend Monitoring into Active Conservation: Can We Save the Cascades Frog (*Rana cascadae*) in the Lassen Region of California? 28
Gary M. Fellers, Karen L. Pope, Jonathan E. Stead, Michelle S. Koo, and Hartwell H. Welsh, Jr......

Beach Fidelity and Interesting Movements of Olive Ridley Turtles (*Lepidochelys olivacea*) at Rushikulya, India. 40
Basudev Tripathy and Bivash Pandav.....

Wildfire Effects on Water Temperature and Selection of Breeding Sites by the Boreal Toad (*Bufo boreas*) in Seasonal Wetlands. *Blake R. Hossack and P. Stephen Corn*..... 46

Post-breeding Habitat Use by Adult Boreal Toads (*Bufo boreas*) after Wildfire in Glacier National Park, USA. 55
C. Gregory Guscio, Blake R. Hossack, Lisa A. Eby, and P. Stephen Corn.....

Thermoregulatory Behavior of the Saxicolous Lizard, *Tropidurus torquatus* (Squamata, Tropiduridae), in a Rocky Outcrop in Minas Gerais, Brazil. 63
Leonardo B. Ribeiro, Samuel C. Gomides, Aline O. Santos, and Bernadete M. Sousa.....

Core Calling Periods of the Frogs of Temperate New South Wales, Australia. 71
Francis Lemckert and Michael Mahony.....

Vertebrate Road Mortality Predominantly Impacts Amphibians. 77
David J. Glista, Travis L. DeVault, and J. Andrew DeWoody.....

Multiple Paternity in the Oriental-Australian Rear-fanged Watersnakes (Homalopsidae). 88
Harold K. Voris, Daryl R. Karns, Kevin A. Felheim, Bobak Kechavarzi, and Megan Rinehart.....

Techniques

Are Wildlife Detector Dogs or People Better at Finding Desert Tortoises (*Gopherus agassizii*)? 103
Kenneth E. Nussear, Todd C. Esque, Jill S. Heaton, Mary E. Cablk, Kristina K. Drake, Cindee valentine, Julie L. Yee, and Phillip A. Medica.....

DNA Barcoding as a Means to Identify Organisms Associated with Amphibian Eggs. 116
James E. Johnson, Susan F. Belmont, and R. Steven Wagner.....

Inside this issue: Many amphibians reside in underground caverns. Conducting research on such species is time consuming, difficult, and requires much effort to obtain little data. Read about the work by Brian Miller and Matt Niemiller on Tennessee Cave Salamanders.
